MAKING SHRAPNEL IN OLD DOMINION

Three Thousand Men Needed in Richmond Locomotive Works

WORK IN TWO SHIFTS

Expects to Turn Out 5,000 Complete Shells Per Day—Obtain Powder From City Point.

Richmond, May 3.—Within six weeks the Richmond branch of the American Locomotive Works will begin the manufacture of shrapnel and cartridge casings for the allies, and, so large are the orders, 3,000 men will receive employment. As far as possible, every former employee of the local branch will be taken back, and work with which he is in part familiar will be given to him.

It was said yesterday that about 150 men are being employed now in the manufacture of the simpler tools and devices needed in the making of the powerful shells. The more intricate machinery is being made elsewhere, and will be shipped here as soon as completed.

Though official announcement as to what governments are ordering shrapnel has never been made, for obvious reasons, it is generally understood that the orders originally came from the French and British governments. More lately orders have also been received from the Russian government, so that the first order for the manufacture of 2,500,000 shrapnel and cartridges casings has been largely increased.

Half of the shells, it was announced some time ago, will be manufactured here, and the other half will be made in the works at Dunkirk, N. Y. The local branch has contracted to manufacture in complete form 5,000 shells a day and 5,000 brass cases a day, necessitating the employment of fully 3,000 men working in day and night shifts.

FEARS DEGENERATION

Member of Eugenic Society of England Fined $650.

London, May 3—For advising every young and healthy woman of independent means as a patriotic duty to produce at least one healthy baby, Arthur Busch Michell, of Somerton, Somersetshire, an elderly and wealthy man, a leading member of the eugenic society and the Malthusian league has been fined $650.

Mr. Mitchell was arraigned on the charge of publishing and distributing certain slips of paper without the name of the printer attached, according to law. The slips contained this advice:

"At this time of national emergency, when men are hazarding their all on land or sea, no girl of independent means, gifted with sound health and strength should shirk the risks, responsibilities and odium of producing one well-conditioned child to the community."

On the stand Mitchell not only acknowledged his offense, but justified it by declaring that the tendency of war was to produce a constantly increasing disparity between the sexes and that his advice was only intended for women of independent means, whose fortunes with the death of their male relatives on the firing lines, would be inherited by their sisters, who would become the prey of fortune hunters.

"There must be degeneration of the race," he declared, "where the best and bravest go to the front and are killed. Whereas the chances of marriage are left to those who haven't volunteered."

The magistrate held that this defense only aggravated the crime.

ITALY EXPECTS CONCESSIONS.

That Austria Will Meet Her Demands is Doubted, However.

Rome, via Paris, May 3.—All the Ministers met yesterday with King Victor Emmanuel for the bi-weekly signing of decrees and to discuss the international situation. Baron Sonnino, the Foreign Minister, was the first to leave the conference, going from it to the Foreign Office to meet Prince von Buelow, the German Ambassador, with whom he remained for 45 minutes. It is asserted that Prince von Buelow indicated to Baron Sonnino the lines of Austria's expected answer to Italy.

Indications received in official quarters here lead to the supposition that the answer will contain further concessions. It is not believed, however, that the Austrian concessions will satisfy the Italian claims, which, if as affirmed, are really minimum, mean virtually an end to the negotiations.

ANXITY FOR LUSITANIA

Fear Giant Steamer Will be Torpedoed by German Submarine

New York, May 3—Grave apprehension is felt here for the safety of the big steamship Lusitania, which sailed for England Saturday with a number of prominent Americans on board, because of the renewal of the German submarine raids in the path of the Atlantic liners. Unless her orders are changed the Lusitania will have to pass the Scilly Island, where the American steamship Gurfilght was torpedoed and two other ships, one French and the other British, were sunk late yesterday. Nearly all prominent persons on the Lusitania received telegrams from persons whose signatures they did not know, warning them not to sail on the vessel. Mr. Vanderbilt received one, but ignored it. The German embassy at Washington also warned Americans in an official statement not to sail on the Lusitania. Marine men now see ominous significance in the latter warning, believeing that the new German submarines, with high speed and wide radius of action, are lying in wait on the Atlantic sea lane for the big liner.

PEACE DEMONSTRATIONS.

Forty Thousand Men, Women And Children in Line

London, May 3—The Amsterdam correspondent of Reuter's Tejegram Company states that this year's May day celebration in Amsterdam took the form of a huge peace demonstration, 40,000 men, women and children participating.

The correspondent adds that it was a strange sight to see mingled in the crowds several hundred soldiers in full uniform, carrying red flags bearing inscriptions expressing a desire for peace.

The demonstrators marched through the principal thoroughfarec, passed the palace, and held a great open air meeting, which was addressed by several well known socialists.

Belgian flags were flaunted and national airs played by bands before the kaiser's commanders, but there was no interference.

Berlin, May 3—Many socialistic meetings were held yesterday, but most were behind closed doors. There were no street demonstrations. Throughout Germany the day was quiet.

Paris, May 3—Throughout France May day, usually given over to socialist demonstrations against the government, patriotic meetings were held. Socialist orators to a man sustained the government and pledged themselves to support the armies in the field.

WARSHIPS QUICK TO KILL

Bordeaux, France, May 3—Three persons were killed Saturday in an accident in connection with the launching of the battleship Languedoc. The vessel left the ways with such speed that it stranded on the bank of the river, striking and crushing a lighter, on board which the fatalities occurred.

The Languedoc is of the superdreadnought type, of 24,830 tons, and carries twelve 13.4 inch guns, twenty four 5-5-inch guns and six torpedo tubes. She is 574 feet long and cost $13,312,000.

SINKING OF AN AMERICAN SHIP

Diplomatic Relations Between United States and Germany

SITUATION IS GRAVE

News of Loss of Lives of Three Americans Gives Administration a Severe Shock.

Washington, May 3.—Diplomatic relations with Germany are nearing a grave crisis.

Officials frankly are gravely concerned over the torpedoing of the American ship Gulf Light by a German submarine, coming as it does in face of the distinct warning by President Wilson that should enforcement of the drastic war zone bring the loss of a single American life, the German government would be held to a strict accountability.

Anxiety is apparent on every side.

At no time since the European war began has there been shown so frank an apprehension of what the day may bring forth in relations with Germany.

News of the loss of three American lives on the Gulf Light gave Administration officials a distinct shock, following as it did sharply upon the heels of the attack on the Cushing by an airship and the warning of the German embassy that passengers going abroad did so at their own risk.

Few details of the torpedoing of the Gulf Light have yet been received.

President Wilson returned from Williamstown, Mass., this morning and plunged at once into the task of reading the dispatches relating to the incident.

The President and his advisers have decided that nothing can be done in the matter until full details are received concerning the incident.

BOMBS IN FRANCE

German Aviators Drop Explosives Upon Several Towns

Paris, May 3—German aeroplanes, doubtless in reply to the recent French air attacks on Freidrichshafen, yesterday bombarded various towns of Eastern France.

Four machines flew over Epinal, capital of the French Department of Vosges, yesterday morning, and dropped 20 incendiary bombs. No one was hurt. The only damage was two small fires.

The aeroplane possibly were the same ones which visited Remiremont 16 miles southeast of Epinal. At that place a squadron of French aeroplanes rose to meet the raiders and the Germans turned toward their own frontier.

KILLED BY FALL OF SUGAR

Refinery Workman Buried Under Avalanche of Raw Product

Philadelphia, May 3.—Suddenly caught under two tons of raw sugar at the Pennsylvania Refinery Sunday night. John Swider, 40 years old of No. 1997 North Second street was so badly injured that he died shortly afterward in St. Mary's Hospital. Swider was standing under a chute which carries sugar from one part of the refinery to another. Suddenly one of the shutters under the chute flew open and the sugar began pouring down upon him. It came so fast that at first he was knocked down and then buried. It is believed that the first rush of sugar which hit him on the head broke his neck.

Other workmen saw the acident and ran at once to the place, closing the shutter, but not until two tons of sugar had covered Swider. The others dug him out and found his unconscious. At first it was thought that he was just smothered and would soon recover, but he lingered only a short time after he reached the hospital.

Y., May 3.—When William Barnes' suit for libel against Theodore Roosevelt is resumed in the Supreme Court here today Michael Dolan, general manager of the Argus Company, of Albany, will continue to testify in regard to the printing situation in Albany. GERMANS MOVE ON BALTIC PROVINCES

Petrograd Admits Teutonic Expedition on Land and Sea Serious

ENTER GULF OF RIGA.

Strong Force of Muscovites Sent to Check Invaders Who are Believed to be Bent on Revenge.

Petrograd, May 3—For the first time, the Russian war office admits today that the German expedition toward the Russian Baltic provinces is serious. It is stated that the Germans are co-operating by land and sea.

Deachments of the German cavalry supported by an automobile contingent and mounted infantry, are overrunning the Shavli region. Patrols of the enemy have been reported near Libaus and a squadron of German torpedo craft is operating along the Russian Baltic coast and has penetrated the Gulf of Riga.

Grand Duke Nicholas has sent a strong force of Russians to check the German advance, which is believed here to have the two fold object of cutting off the line of communication toward Warsaw preliminary to another assault on the Russian position along the Vistula and its tributaries and secondly, the devastation of the rich Baltic provinces in retaliation for the Russian raids into East Prussia.

Regarding the stories fathered by Germans that the Rusians were at the end of their resources, Minister of War Sukhomlinoff declared today that in addition to the millions of Russians now in the field, there are as many more in the base depots of Siberia in training.

"We already have 600,000 prisoners of war," he said, "and that number is being constantly added to. The majority of them are Austrian and Hungarians. Hundreds of trains laden with prisoners are constantly coming into Russian territory. Before long Emperor Franz Joseph will have more of his subjects prisoners of war in Russia than he has in active service in Austria."

KILLED BY PRIEST

Ranchman Attempted to Murder Clergyman and Nurse

Palm Springs, Cal. May 3—County officials today investigated circumstances surrounding a pistol dual which resulted Friday night in the death of Peter Glennon, a young ranch hand and the wounding of Rev. Paul Reinfels, a Catholic priest from Paloma, Ill.

The shooting occurred at Chino Canyon, frequented by health seekers five miles from here in the riverside country desert.

Father Reinfels arrived at Palm Springs two days ago and went at once to a tent in the canyon. Miss Clara Sheer, a nurse waited upon him. Glennon was said to have been in love with Miss Sheer. According to the priest and nurse, Glennon came five miles from a ranch where he was employed to the Chino Camp, where he announced he intended to kill both Miss Sherr and Father Reinfels. His first shot wounded the priest, and Miss Sherr grappled with Glennon. As she struggled with the ranchman, Father Reinfels drew his own revolver and fired killing Glennon. The priest's wound was said to be slight.

AMERICAN SHIP SUNK

Was Laden with Oil from Port Arthur Texas for Rouen

London, May 3—The American oil tank steamship Gulf Light was torpedoed off Bishop's Lighthouse, Scilly Island, at noon on Saturday by a German submarine. The vessel was badly damaged and the crew was landed at Scilly by a patrol boat.

"Of the crew of thirty-six officers and men thirty three were saved. Two men were drowned when they jumped overboard, and Capt. Alfred Gunter, her commander, died of heart disease the result of the shock occasioned by the attack.

The Gulf Light was flying the American flag and every precaution had been taken to identify the ship as American and not belonging to any of the allies.

The vessel was picked up by steam drifters which towed it into Crow Sound, where it was beached.

The Gulf Light was laden with naptha from Port Arthur, Tex., for Rouen.

The French steamer Europe also was torpedoed by a submarine and sunk off the Scilly Islands. The submarine ordered the crew to take to the boats and then fired several shells into the steamer. The ship did not sink from the effect of these, so the submarine launched a torpedo which sent her to the bottom. The crew of the Europe was picked up by a fishing smack and landed at Newlyn, Cornwall England.

The Europe was bound from Barry to St. Lazaire with coal.

ALLIES ADMIT HEAVY LOSSES

Work of Reducing Dardanelles Fortifications is Costly

INVADERS INTRENCH

Fleet Continues Bombardment of Forts and Materially Reduce Fire of Some of Them.

London, May 3—That the allied troops are losing even more heavily than had been feared in the operation to aid the fleet in reducing the defenses of the Dardanelles is admitted at the war office today. But emphatic denial is made of the Turco-German claims that the expedition is facing annihiliation.

So far as the retirement of the French expedition from the Aslatic side of the straits is concerned, an official statement explains that it was ordered to do so.

The French troops who were put ashore about Kum Kaleh, had instructions to maintain their positions only under the guns of the fleet, officials say, and not to attempt an advance, as the Turks were very strongly intrenched all along this point, and to drive them out would be too costly an operation.

It is now understood that the French, aided by a detachment of British forces, have landed further to the south at Gheyikli a dispatch to the Daily Mail says, and they are now intrenching under cover of the guns of French warships.

The fleet is continuing its bombardment of the Dardanelles forts and has succeeded in materially reducing the fire of several of them.

The Turks continue to operate their mobile batteries at many points, which has made the work of the mine sweeper almost impossible.

CHINA SPURNS JAP DEMANDS

Whole of Group V Rejected and Mikado's Minister Signifiantly Says: "I Am Sorry."

Peking, May 3—The Chinese Government has definitely refused some of the most important demands made by Japan. On learning of China's decision, the Japanese Minister, Eki Hioki, said to the Chinese Foreign Minister, Lu Cheng-Hsiang:

"I am sorry. I believe my government will be disappointed."

The Chinese Foreign Minister, at a meeting Saturday of representatives of the two Governments, presented China's reply in the shape of a formal rejection of Group V of the Japanese demands in its entirety. This group, as originally submitted to China, contained what are perhaps the most important demands made by Japan. It provided among other things for employment of "forceful Japanese" as political, financial and military advisers: participation by Japanese in the police administration of various important places; Japanese supervision over the manufacture or purchase by China of munitions of war, and for the granting of Japan of concessions for railway construction and mining and harbor operations.

The new draft of the Japanese demands, which was presented on Tuesday, reconstructed Group V in a manner which the Chinese representative said was more menacing.

The Chinese refusal was modified to some extent by an offer to meet the revised wishes of Japan in regard to the Province of Fukian, providing that China shall give Japan a pledge that no foreign Power shall receive a concession and no foreign capital shall be employed without Japan's consent in that province.

LONG RIDE WITH DEATH.

Philadelphia, May 3.—It was a mighty thankful man who was taken trembling from a box car in the Pennsylvania Railroad yards in Camden early yesterday morning. Glad he was, too, to be locked up at the City Hall, preferring anything to a longer ride in that death chamber. The man gave the name of John Fitton, 40 years old, of this city. He had ridden for miles locked in with tons of gunpowder and once he struck a match to get his bearings in the dark. That was when he discovered his plight and after that he could picture death in horrible form as his portion every time the train gave an extra lurch and hit a cross-over or halted with a jar.

WANT FIRE APPARATUS.

Petition for Removal From Rosemont to Virginia Highlands.

Residents of Virginia Highlands, Alexandria county, have petitioned the supervisors of the county, to remove the fire apparatus now located in Rosemont, which was recently annexed to the city of Alexandria, from its present location to their community.

Since Rosemont is now protected by the fire department of the city of Alexandria it is claimed that the apparatus should be removed to some other portion of the country where it could be of use. The residents of Virginia Highlands have agreed to organize a volunteer fire department in case they receive the engine and hose.

BULL'S TOSS SAVES MAN.

Landed Over Fence. Then Hour's Fight Subdued Taurus.

Allentown, Pa., May 3.—William Gleppinger, aged 36 years, superintendent of the farms of George A. Albright, an Allentown manufacturer, at Fogelsville, was gored yesterday, and seriously injured, by his employer's $5,000 Jersey bull, Prince of Macungie.

Against orders, it is alleged, he took the vicious bull out for a walk, when the animal broke loose from his halter, turned on his keeper, and, after goring him badly, threw him 15 feet in the air over a fence into an adjoining field. This saved Kleppinger's life.

Three other employees on the farm witnessed the attack, and when they rushed to Kleppinger's rescue, and attempted to drive the animal away, the bull charged them, too A regular bull fight followed, and, after an hour, the farmer toreadors succeeded in dricing the enraged bull into the barn.

LIFE IS NOT A JOKE.

Life is not a huge joke to circus clowns nor other the professional funmakers who make thousands laugh. They may, themselves, be nursing broken hearts. This was the case of "Capt. Phillip Brinkerhoff," one of the clowns with Ringling's circus, who was yesterday found dead in his room at the Interocean Hotel, Chicago, having swallowed carbolic acid. Brinkerhoff had been a clown, a high diver and general handy man in circuses and amusement resorts for several years, although he was but 27 years old .A few months ago he married, but was recently separated from his wife, Kitty, who is a ticket seller at the Arcade Theater. She was formerly a high diver with him, and he was greatly attached to her. After their separation he began to drift.

Many years ago a professional funmaker was attempting to amuse a large audience in a neighboring city. It was seen that he was not at his best, and the audience became impatient with him. He walked to the footlights and said:. "My friends, I am acting a false part. You came here to laugh and expect me to furnish the suggestions. I have no heart for mirth, as at this time one dear to my soul (his wife) is lying critically ill." The audience expreseed their sympathy by loud applause.

A humorist who made a great reputation in Paris was a chronic sufferer from depression. He was never able to smile or carry on in leaving the play house. He visited a specialist on one occasion and requested him to prescribe a cure for melancholy. The physician, after a close examination, said "I find nothing the matter with you physical. Your spirits seem to want encouraging. Go hear Monsieur tonight, you will enjoy a good laugh." The humorist with an expression of sadness, replied "I am Monsieur."

Those who remember the late Dr. Bagby remember him as a quiet and serious thinking man. Those unacquainted with the entertaining lecturer would have suspected the vein of humor which flowed through him.

"Cyclone" Davis, at one time a member of congress from Virginia, could keep an audience in good humor for hours. His natural demeanor was that of a man disappointed in life and rather inclined to seriousness.

NO INDICATIONS OF EARLY PEACE.

The German government has ordered all preparations for another winter campaign, according to the correspondent of the London Daily Mail at Bucharest.

The same paper says that the budget statement which Lloyd George will introduce in the house of commons tomorrow will be a provisional one, on the assumption that the war will last throughout the financial year, 1915-16. The assumption that the war will be a long one has been made for some time by observers.

The wearisome period of supense, of inexorable silence by the Italian government and keen expectation on the part of Italian people is rapidly nearing an end. Even Prince von Buelow and Baron Macchio, the two special pleaders for the Teutonic cause, feel the ground slipping from under their feet and admit to intimates that hope is dwindling fast. The worst fear may be realized in the course of the present week.

Immediately Italy declares war Germany will invade Switzerland with two army corps, occupying Zurich and the country around it. This assertion is made positively in the Paris Liberte.

Information from Berlin shows that the German plan which has been worked out is as follows:

When Italy intervenes the Kaiser will inform Switzerland that he no longer feels under obligations to respect her neutrality, because Italy already has violated it by flying over Swiss territory. Germany also will assert that she feels bound to protect her interest in the Gothard, which is under German and Italian control. When one corps enters Basle the other will march from Constance the two joining at Zurich, whose important industrial machinery would be invaluable to the German army.

Former President Taft, who is a close observer, says there are no signs of peace on the horizon. He, too, looks for a long war.

The rejection by China of Japan's demands is likely to lead to a clash of arms. There is much at present to superinduce pessimism among lovers of peace.

NEWS OF THE DAY

The total German dead in the recent battle of Ypres is placed at 40,000.

It is generally believed in Washington that Japan will eventually get from China, in one way or another, all that she has asked for.

A German submarine sank the old British destroyer Recruit off the Galloper lightship, in the North Sea, Saturday night, but the score was more than equalized by other British destroyers, which, after a stern chase, overtook and sank the two German torpedoboats that had accompanied thes ubmarine on her cruise. Losses on both sides total more than 100 men. The British rescued many of the Germans.

Members of the vice and crime elements in Hagerstown, Md., made an unsuccessful attempt early yesterday morning to blow up the tabernacle in North Potomac street, in which the Rev. Dr. W. Biederwolf is conducting a six weeks' evangelistic campaign. The only damage done by the explosive, said to have been dynamite, was the blasting of a big hole in the rear of the tabernacle, which seats 7,000.

A fox terrier hobbled up the steps to the front entrance of the city hospital of St. Louis last night, holding its left front leg in the air, and saying plainly with is eyes that he wished admittance as a patient. Nurses and doctors examined the leg in the reception room, and found it was broken. They bound it in splints as carefully as if the dog had been human. Then the terrier, after effusive displays of gratitude, curled up contentedly on a rug, and went to sleep.

Hugh M. Dorsey, solicitor general of Georgia, will go before Judge Benjamin Hill today and ask him by means of a writ of habeas corpus to bring Leo M. Frank before the bar and resentence him to die on the scaffold for the murder of Mary Phagan. Dorsey, in his petition, states that while the mandate of the supreme court has not yet arrived, the decision is known and there is no reason for delay. He will point out that the date can be set for some time after the time the mandate is due, which is about May 20. It is undrstood that Gov. Slaton and Gov. elect Harris have both stated that they will practically retry the case when it comes before them. Every bit of evidence will be considered, and it is eevn probable that witnesses will be called.

RESCUED FROM WELL.

William Wade Almost Miraculously Escapes Death—One Hundred Men Work to Save Him.

Arvonia, Va., May 3.—All the Cartersville and Pemberton section has been stirred by the thrilling rescue of young William Wade, who for 18 hours was entombed in a caved well, 59 feet deep, and who, with the assistance of 100 men working furiously was rescued alive at 7 o'clock this morning.

Young Wade had just finished cleaning out the well, and had stepped into the large bucket or tub and given the signal to be drawn up when the entire well caved-in. It was thought he had been instantly killed, but the men began work to get the body out at 2 o'clock Thursday. At 6 yesterday afternoon they heard his voice through the rocks and earth, and a great number of men assembled and worked furiously through the night, listening through the hours to his pleading that they work faster, as he was suffocating. At 7 Friday morning he was reached, and taken from his perilous position. With the exception of a bruised ankle, and some nervous shock, he is quite well, and will be entirely himself again, according to physicians, within the next few days.

Wade came to this section, with his parents, a few years ago from a Western state.

ELOPED ON MOTORCYCLE.

Philadelphia Couple Have Ceremony Performed at Elkton.

Elkton, Md., May 3.—On a motorcycle built for two, Joseph E. Hawley and Miss Freda A. Ranch, of Philadelphia, Pa., eloped to the Gretna Green of Maryland Saturday and were married in the private office of the clerk of the court, Cecil Kirk.

The couple were accompanied by a young man and woman, also on a motorcycle, and after procuring the license from Deputy Clerk Charles S. Peacock started to leave the office, when they hailed a passing minister. They stated they wanted to get back to the City of Brotherly Love and to save time requested the minister to marry them in the clerk's office, which he did. After the knot had been tied they mounted their motorcycle and started for their home.

How Mrs. Harrod Got Rid of Her Stomach Trouble

"I suffered with stomach trouble for years and tried everything I heard of, but the only relief I got was temporary until last spring I saw Chamberlain's Tablets advertised and procured a bottle of them at our drug store. I got immediate relief from that dreadful heaviness after eating and from pain in the stomach," writes Mrs. Linda Harrod, Fort Wayne, Ind. Obtainable everywhere.

This building can be readily converted into a model apartment house for which there is a great demand in Alexandria. It will make the most beautiful apartment house in the city as there is abundance of light on both sides of the building.

That it will pay a very handsome dividend on the money invested has been proven by the Wagar Apartments, on the north, which are now completed In this house there are nine apartments all rented by the year to desirable tenants at much larger rentals than are estimated for this proposition.

The building can be converted into amodern apartment house with all improvements for the sum of $5.000, which is the amount that will have to be invested. Estimates from reliable contractors have been secured for the work which will include an attractive lobby, stairway, steam heating plant boiler for hot water and modern plumbing.

The property will be sold for $10,000 and no cash will be required, the entire purchase price remaining as a mortgage for a period of four years with interest at six per cent.
